PROFESSIONAL SUMMARY

Senior Data Analyst with 4 years of experience in data analysis, project management support, and decision support. Skilled in developing KPIs, conducting feasibility studies, and assessing project alignment with organizational objectives. Built a centralized data repository integrating data from 7 departments, developed interactive dashboards to monitor the performance of 90 branches, and identified 19 underperforming branches, contributing to improved service coverage and cost optimization. Seeking an opportunity to apply my skills in Power BI, DAX, Excel, SQL, Python, Data Modeling, Machine Learning, and Microsoft Project to enhance operational efficiency and support strategic objectives.

PROFESSIONAL EXPERIENCE

Senior Data Analyst, 09/2025 - Current

AlArkkan Training Company – Riyadh, Saudi Arabia

- Developed a comprehensive data repository integrating data from 7 departments, creating a unified source for performance analysis, reporting, and decision-making.
- Created KPI scorecards and interactive Power BI dashboards covering 90 branches nationwide, enabling continuous and real-time monitoring of operational performance.
- Identified 19 underperforming branches representing 21% of the network and provided analytical recommendations that supported branch rationalization and cost-optimization decisions.
- Conducted geographic coverage and distance analyses and recommended mobile branch solutions to address service gaps, improve accessibility, and reduce fixed operating costs.
- Prepared feasibility studies and evaluated financial and operational aspects and project alignment with strategic objectives.
- Prepared executive analyses and reports to support decision-making and improve performance.

Data Analyst, 02/2024 - 07/2025

Profit School – Abha, Saudi Arabia

- Analyzed data using Python, Power BI, and Excel to identify trends and improve decision-making
- Developed Power BI dashboards and KPI trackers to analyze performance and provide actionable insights.
- Amplified analysis of structured datasets through Python to improve reporting and resource-allocation strategies.

Teacher, 02/2022 - 07/2023

School – Abha, Saudi Arabia

- Increased educational expertise and knowledge by participating in instructor-oriented workshops.

Data Entry, 01/2021 - 01/2022

Restaurant – Abha, Saudi Arabia

- Entered and maintained company records while organizing documentation for efficient retrieval.
